

Below is a link to a website that gives information on how to **correctly, and safely clean** historic gravestones using the **D-2 solution**.

<https://d2bio.com/>

Cleaning supplies can be ordered from Beeck Mineral Paints in Fort Mill, SC.

They respond quickly and I usually get it the next day.

Southeastern US

I think Amazon and Wal Mart also carry the D2 solution.

Below are two links to a two-part video that deals with **gravestone preservation**.

I especially like the following two videos, he is from Pumpkintown, South Carolina, near Clemson.

Part One: <https://www.youtube.com/watch?v=yz3m-FsGYGI>

Part Two: <https://www.youtube.com/watch?v=Z1zIKvz0jVo>

YouTube videos that show how to use D2 to **safely clean grave stones**:
